SKILLS

MySQL · REST APIs · JavaScript · React · Github · CSS · HTML5 · MongoDB · Handlebars · Node.js · Handlebars · JQuery · Bootstrap · Express.js

PORTFOLIO

Zero Proof

09/2023

This website was crafted with a focus on inclusivity, catering to individuals who choose not to consume alcoholic beverages. The platform empowers users to share and discover locations that offer an array of mocktails and alcohol-free beer options.
- I took charge of the backend aspects of the project, which encompassed tasks like configuring the server, developing and implementing data models, and establishing secure user authentication.

Pixel Perfect Reviews

08/2023

This platform empowers users to actively engage with the gaming community by allowing them to leave comments and reviews on the games they've selected. Users can contribute to discussions and provide valuable insights by commenting on others' experiences.
-
  My responsibilities encompassed a wide range of tasks, including server setup, designing and implementing schemas and models, establishing robust authentication mechanisms, and providing crucial support in configuring the MySQL database.
